Sysco Transforming the Future of Foodservice Delivery: Announces Intent to Purchase Up to 800 battery electric Freightliner eCascadia from Daimler Truck North America to Serve U.S. Customers

HOUSTON, Texas, PORTLAND, Ore. (May 19, 2022) – Sysco Corporation (NYSE: SYU), the leading global foodservice distribution company, and Daimler Truck North America (DTNA), the leading North American heavy-duty truck manufacturer, today jointly announced a Letter of Intent (LOI) to deploy up to nearly 800 battery electric Freightliner eCascadia Class 8 tractors serving Sysco customers by 2026. The first eCascadia delivery is expected to arrive at Sysco's Riverside, California site later this year.

"Sysco is committed to making meaningful investments to support achievement of our climate goals, including those that encourage the development of electric tractors and trailers. We are eager to partner with a like-minded industry leader like Daimler Truck North America to deploy battery electric trucks nationwide," said Marie Robinson, Sysco's EVP, Chief Supply Chain Officer. "This investment shows our commitment to sustainability and growing responsibly and will ultimately help us meet our goal of reducing our direct carbon emissions by 27.5 percent by 2030."

Sysco aims to power more of its tractor fleet with alternative fuels, and the deployment of Freightliner eCascadias along with refrigerated trailers will play a significant role in achieving its science-based climate goal to electrify 35 percent of its U.S. fleet by 2030. Sysco Riverside continues to build its charging infrastructure to support additional battery electric truck deployments, including additional solar capacity.

DTNA engineers, manufactures and sells zero-emission trucks (tank to wheel) that provide efficient, reliable and innovative transportation solutions for fleet companies, while benefiting the environment. The company recently unveiled its all-electric Freightliner eCascadia at the ACT Expo in Long Beach, California. The industry-leading Detroit Assurance suite of safety

systems comes standard with the eCascadia to benefit fleets, drivers and fellow motorists with enhanced on-road safety.

“At Daimler Truck North America, we are proud to enter into a new era of sustainable, safe and efficient commercial transportation with our friends at Sysco,” said DTNA SVP, Sales and Marketing, David Carson. “Industry transformation requires leadership and collaboration, and a shared vision for the future of the supply chain. Together we are sustaining our mutual momentum toward a brighter future for us all.”

Sysco and DTNA are protecting the people and communities they serve by innovating and transforming the way the industry does business. Learn more about Sysco’s Corporate Social Responsibility (CSR) program, including Sysco’s 2021 CSR Report, at sysco.com/csr2021report.

About Sysco Corporation

Sysco is the global leader in selling, marketing and distributing food products to restaurants, healthcare and educational facilities, lodging establishments and other customers who prepare meals away from home. Its family of products also includes equipment and supplies for the foodservice and hospitality industries. With more than 58,000 associates, the company operates 343 distribution facilities worldwide and serves more than 650,000 customer locations. For fiscal 2021 that ended July 3, 2021, the company generated sales of more than \$51 billion. Information about our Corporate Social Responsibility (CSR) program, including Sysco’s 2021 CSR Report, can be found at sysco.com/csr2021report.

Forward-looking statements:

This document contains forward-looking statements that reflect our current views about future events. The words “anticipate,” “assume,” “believe,” “estimate,” “expect,” “intend,” “may,” “can,” “could,” “plan,” “project,” “should” and similar expressions are used to identify forward-looking statements. These statements are subject to many risks and uncertainties, including an adverse development of global economic conditions, in particular a decline of demand in our most important markets; a deterioration of our refinancing possibilities on the credit and financial markets; events of force majeure including natural disasters, pandemics, acts of terrorism, political unrest, armed conflicts, industrial accidents and their effects on our sales, purchasing, production or financial services activities; changes in currency exchange rates, customs and foreign trade provisions; a shift in consumer preferences towards smaller, lower-margin vehicles; a possible lack of acceptance of our products or services which limits our ability to achieve prices and adequately utilize our production capacities; price increases for fuel or raw materials; disruption of production due to shortages of materials, labor strikes or supplier insolvencies; a decline in resale prices of used vehicles; the effective implementation of cost-reduction and efficiency-optimization measures; the business outlook for companies in which we hold a significant equity interest; the successful implementation of strategic cooperations and joint ventures; changes in laws, regulations and government policies, particularly those relating to vehicle emissions, fuel economy and safety; the resolution of pending government investigations or of investigations requested by governments and the conclusion of pending or threatened future legal proceedings; and other risks and uncertainties, some of which are described under the heading “Risk and Opportunity Report” in this Annual Report. If any of these risks and uncertainties materializes or if the assumptions underlying any of our forward-looking statements prove to be incorrect, the actual results may be materially different from those we express or imply by such statements. We do not intend or assume any obligation to update these forward-looking statements since they are based solely on the circumstances at the date of publication.
